B.ROOT-SERVERS.NET

Status and Plans

bill manning

bmanning@ep.net

Status

- Has migrated from a single unit on a dedicated LAN to multiple units behind load balancer
- Have enabled IPv6 transport

Plans

- Proposal into ICANN to renumber – expect confirmation and execution this year
- Begin plans to evaluate anycast (see F, I, K, M, and J for others rollouts)
- Starting evaluation of other hardware and software platforms with an eye to increase diversity
  - Non-Intel hardware
  - Non BIND software (not NSD either…)
