32 bit AS Numbers...

(Early Warning)

- 32 bit AS Number Policy (2005-12)
 - Work on preparation for 1 January 2007 is underway
 - Lots of systems affected
- 2007: RIPE NCC able to assign 32 bit AS Numbers (ASN32)
- 2009: Default will be an ASN32
- Get one and check how this will affect your systems
- Our experience: Changing a 16 bit number into a 32 bit number is a non-trivial operation that requires a lot more time than one would think.
