RIPE 53 Routing Working Group Agenda

- A. Administrivia
 - Scribe
 - Agenda bashing.
 - Minutes of last meeting 5 minutes. Chairs.
- B. Recommendations on Route Aggregation
 - 10 minutes. Philip Smith.
- C. Open Issues with IPv6 Routing and Multihoming
 - 50 minutes. Vince Fuller.
- D. RPSL Analysis Service
 - 10 minutes. Tiziana Refice, Massimo Rimondini.
- Y. Discussion on WG charter and focus.
 - As available. WG Chairs.
- Z. AOB.

Charter

- Evolution of the routing tables, for IPv4 and IPv6
- Dissemination of information on advances in routing (this is what most talks end up being about)
- Work on BCP recommendations as appropriate to the current network
- Discussion of interactions between RIR policies and procedures and Routing
- For the last point we are thinking about subjects like how is the new RIR CA project going to affect ISPs, etc
- discussing the requirements and features of the SW tools that work with the information from the Routing Registry & BGP (e.g. IRRToolSet, Nemesis, RIS, routeview, rrpowertools ...)
