Questions

**Do you know when your
Prefix gets hijacked?**

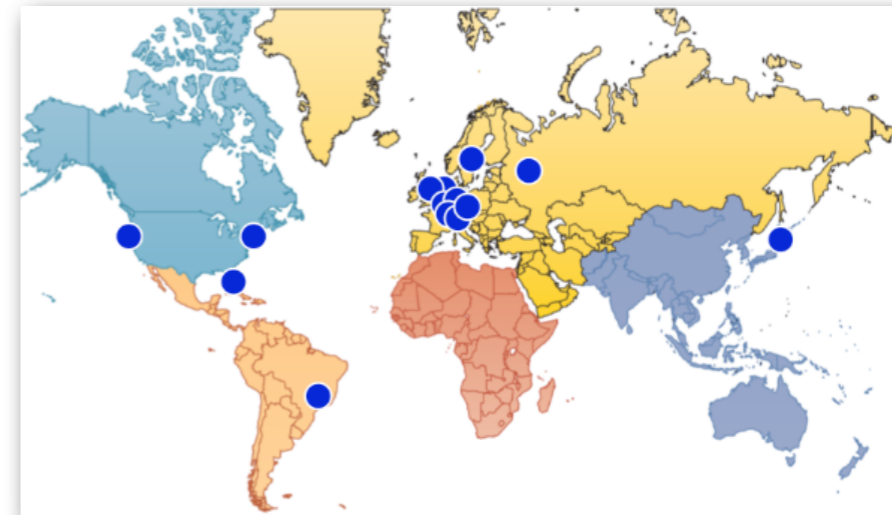

Soon you will!

**Do you know when your Transit
providers suddenly change?**

MyASN Overview

- RIS' alarm system
 - 15 RRCs
 - 620 peers
- Notifies users when:
 - someone else announces their prefix
 - someone unexpectedly gives transit to them
- Notifies users by Syslog or Email

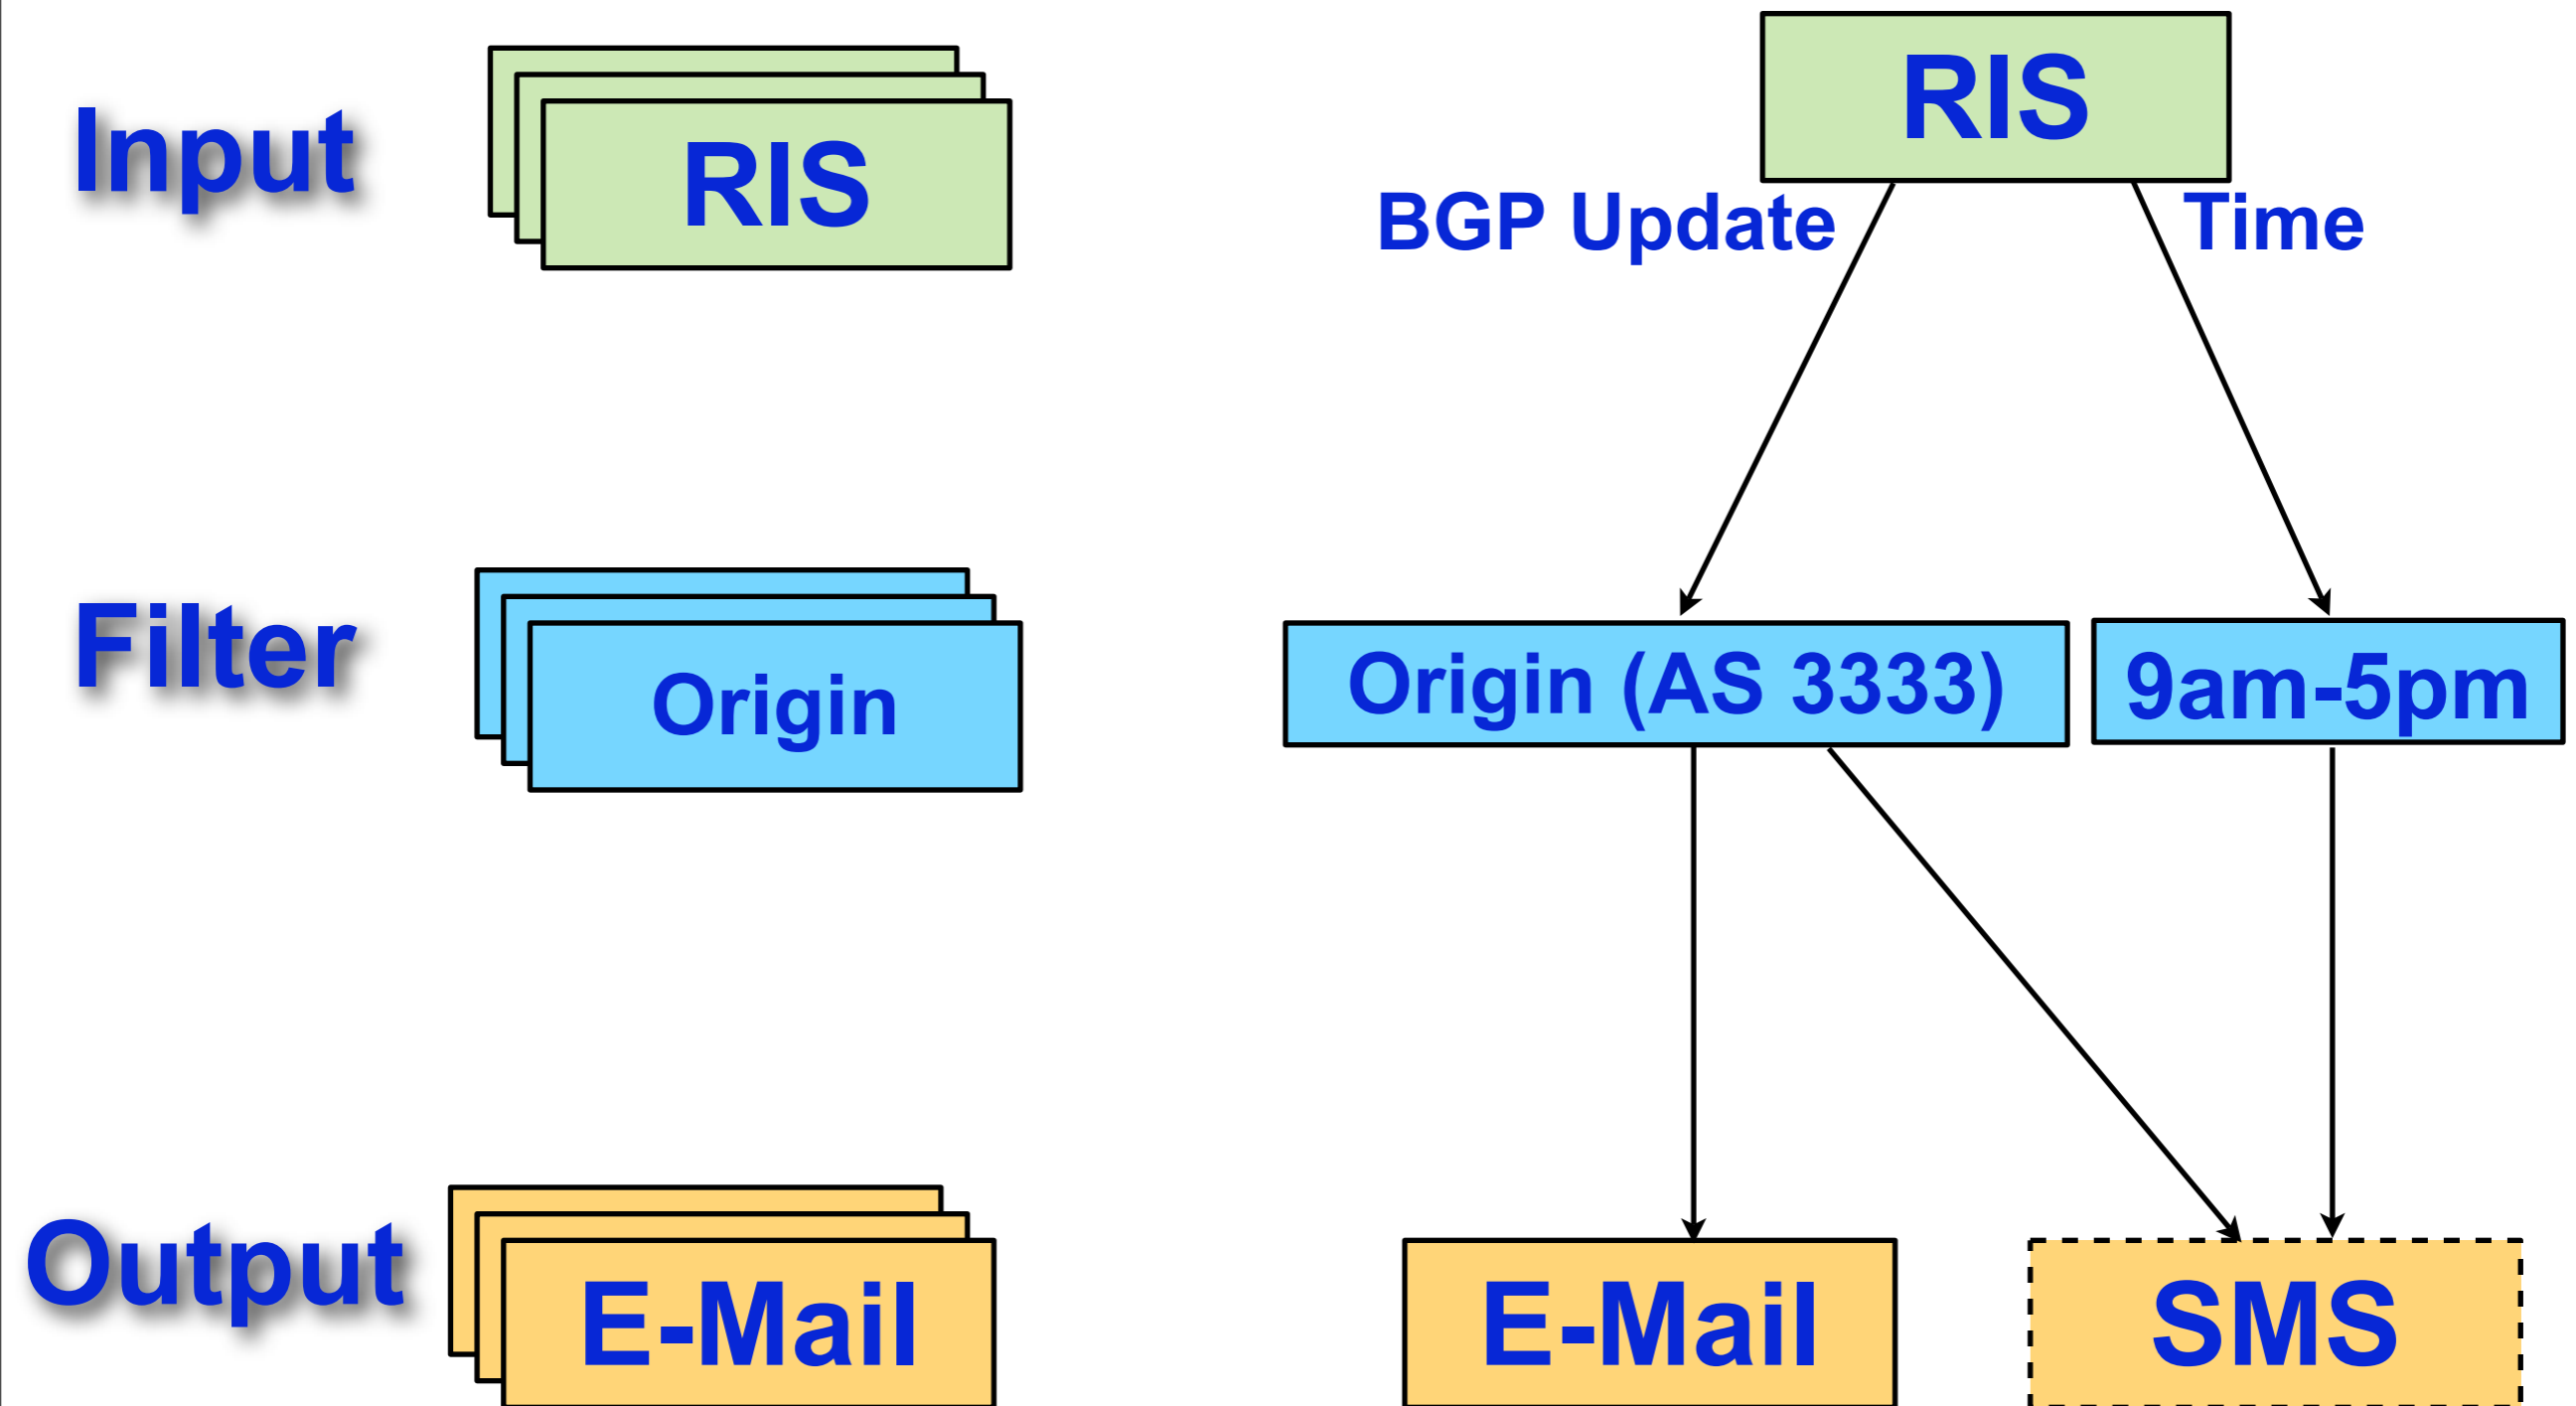

Alarms - Innovation

Innovative three-stage System

Alarms - Example

The New MyASN
